

## **What's different about GORUCK Challenges?**

Your class is led from start to finish by a Special Operations Cadre whose job is to build a team by pushing you to overcome, together. You stay with your class the entire time aka a true team event, never in any way confused with a road race or a mud run. And no, your Cadre is not a drill sergeant and no, this is not bootcamp.

That stuff belongs to the military, this is simply an event about your team.

The patch you earn represents a significant accomplishment and will never be for sale. Wear it with pride.

### **Heavy Challenge 4.29.16, Indianapolis**

**24+ hours, 40+ miles**

Heavy means more physical and mental stress which means more leadership and teamwork training. Some lessons can only be learned through time, and 24+ hours is a lot of time. Average completion rate: 50%

### **Tough Challenge 4.30.16, Indianapolis**

**10-12 hours, 15-20 miles**

GORUCK Tough is a team event, never a race. A Special Operations Cadre challenges, teaches, and inspires your small team to do more than you ever thought possible. Average completion rate: 94%

### **Light Challenge 5.1.16, Indianapolis**

**4-5 hours, 7-10 miles**

GORUCK Light is an introduction to the team-based training found in Special Operations. It is also much less grueling than our original event, The GORUCK Tough Challenge. Average completion rate: 100%
